

### Sptember classes

*Come practice using an actual fire extinguisher to put out a very real fire.* These classes are also appropriate for youth. Fire Chief Ray Olsen will walk us through the correct steps to put out a fire, then we will take turns trying our hand at it. (Remember that fires double in size every minute so being able to fight a small fire right away is better than fighting a big fire or watching it all burn up!) Please put this on your calendar and plan to attend one of these classes.
